

# WILL YOUR DECK HANDLE WINTER?

OR YOUR TENANTS' EARLY MORNING COFFEE?

**DON'T LET A DAMP DECK TURN INTO A SLIP 'N SLIDE THIS WINTER**

Nothing ruins a crisp QLD morning faster than a **DODGY DAMP DECK** : slick boards, hidden rot, and wobbly rails just waiting to catch someone off guard  
(AND YES... **INSURANCE HEADACHES RIGHT BEHIND IT**)

**SKIPPING DECK MAINTENANCE NOW MIGHT SEEM HARMLESS...**

but cooler temps + moisture = the perfect combo for:

- **SLIPPERY SURFACES (MORNING DEW SAYS HELLO)**
- **TIMBER ROT SETTING IN QUIETLY**
- **LOOSE BOARDS GETTING WORSE, NOT BETTER**
- **HANDRAILS YOU DON'T TRUST WHEN IT MATTERS**

## HERE'S THE DRILL (OR MAYBE THE HAMMER)

- ✓ **STEP ONE** Call ShieldPro (still too easy)
- ✓ **STEP TWO** We come and sus out your deck (don't worry, we've seen it all)
- ✓ **STEP THREE** No shortcuts, no patch jobs, no "that'll do"
- ✓ **STEP FOUR** Safe, solid, and ready for year-round use

### WHAT WE CHECK

- + SLIPPERY OR WORN SURFACES
- + EARLY SIGNS OF TIMBER ROT
- + LOOSE OR LIFTING BOARDS
- + UNSTABLE HANDRAILS

### WHAT WE FIX

- + REPLACE OR REPAIR UNSAFE BOARDS
- + SECURE AND REINFORCE RAILS
- + TREAT, SEAL, AND PROTECT TIMBER
- + GET EVERYTHING SOLID AND SAFE AGAIN

Your deck should be for relaxing - not testing your balance first thing in the morning.  
Call ShieldPro and keep your winter safe, solid, and slide-free.
